You Build

What suits you

Health and Safety Solutions that work for your business

There are times when every business needs a little extra help and support with health and safety. Examples could be a new project, resourcing levels, compliance requirements, tendering new or existing projects or perhaps specialist support or auditing.

These are all services which can be provided under our enhanced support services, setting a platform for continuous improvement.

Choose a level of support which suits your business and rely on our experience, knowledge and flexibility to save you time, money and worry.

Our team are experts in their field with many years of experience in managing, supporting, optimising and delivering results in:

- | | |
|------------------------|-----------------------------|
| ✓ Reduced Costs | ✓ Health |
| ✓ Safety | ✓ Tenders |
| ✓ Compliance | ✓ Reduced Risks |
| ✓ Systems | ✓ Business of Choice |
| ✓ | ✓ |

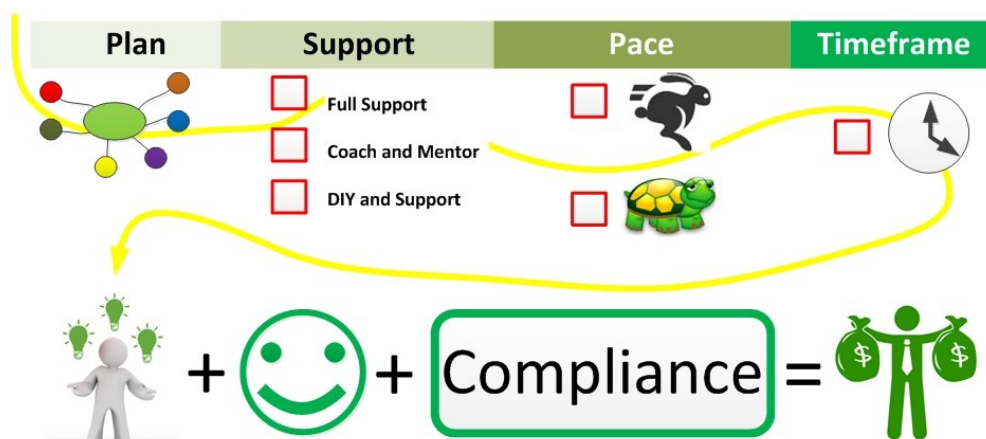

Let us share our best practices and solutions so you can achieve your business goals and cost savings.

Simplifying

Safety, Systems, Compliance

We specialise in supporting businesses achieve their safety, compliance and business goals with our practical approach.

- ✓ **OHS Resourcing** Short and long term OHS resourcing for site operations, projects, supporting your team, cover holidays and maternity leave.
- ✓ **Safety Management Plans** Company, site and project specific Safety Management Plans.
- ✓ **SmartDoc** Supercharge the way you create project documents. Smartdoc technology, create project specific documents in minutes not hours.
- ✓ **Plant, Task and Manual Handling Assessments** Identify the risk and implement practical solutions.
- ✓ **OHS Coaching** Do you have a team in place and just need support?
- ✓ **What else we do:**
 - OHS & System Consulting
 - Auditing
 - Load restraint compliance
 - Noise assessments
- ✓ **Safety- moving to the next level or just not sure where to start** our Beyond Compliance program could be for you.
